STATEMENT OF OFFICE BEARERS

Candour Solutions has been in existence for several years, and has always been exploring possibilities to add remarkable value to the existing healthcare quality-based educational system. With CanEd, our new education and training wing, we aim to bring young minds who are passionate to work in this industry together, and mould them into professionals to understand the pulse of each business scenario from the get-go.

Ms. Anjana Menon
CEO, Candour Solutions

As an individual who has known the work ethic and professionalism of Candour Solutions even before being part of the company, I take extreme honour in heading CanEd with a wonderful team by my side. Our services are crafted from the seed of experience, and I'm sure it will translate for the students and other working professionals.

Mr. Bharath Menon
Program Lead, CanEd

WHY CAN-ED?

Candour Solutions, with each interaction with the young healthcare workforce and student community, has constantly observed the ever-decreasing employability and incompetence of the youngsters in the healthcare industry. This has been a constant source of concern for us as a team, and now we feel it is our turn to address this issue by utilising our resources. Hence, CanEd was birthed, with a vision to provide top quality education at affordable prices to uplift students and future healthcare professionals, and help them reach the pinnacle of success.

Equipped with several years of experience as a healthcare quality management system consultant, Ms. Anjana Menon was indeed the best person to identify the pulse of the industry in the modern-day context. Hence, with a clear idea as to what the industry lacks, the program was developed to address just that. To give back to society what she gained over the years in terms of experience and exposure in the healthcare industry, she and her team was fixed on the vision of a better system of healthcare quality management education.

Youngsters, being the promise of tomorrow, are at the forefront of this quantum shift. It is their never-ending energy and quench for success that should be the transformation catalyst in this industry.

Can-Ed is here to bring a change, and a sustainable one at that. We are here to take passionate, enthusiastic future healthcare aspirants and transform them into professionals, which inadvertently, would make the world a better place. We strive to achieve the perfect balance between knowledge and thought. We strive to provide both employers as well as employees with what they're looking out for. We strive to be the Golden Mean.

THE CORE STRENGTHS OF CAN-ED

Two decades worth of backup in healthcare quality system consultation.

Vast network and long-term association with a wide range of hospitals.

Syllabus developed with clear focus on employability.

Strong inclination towards practical knowledge and systematic approach.

Affordable pricing.

WHO SHOULD UNDERTAKE THIS COURSE?

Are you?

Of the opinion that practical knowledge and training is far more valuable than theoretical knowledge?

On the lookout for that one course that will provide knowledge and guide you through the full length of your career?

Enthusiastic and passionate about healthcare?

Looking forward to being the genesis of change this industry is welcoming?

Looking to 'create' a designation for yourself wherever you go?

If you said yes in your mind after reading each of these questions, don't hesitate. You fit the bill. Come join us, and be the change you want to see.

WHO SHOULD UNDERTAKE THIS COURSE?

Not everybody knows this, but quality administration/management is not a department on its own. It's a culture, that is essential to the smooth and efficient functioning of each aspect of the healthcare organization.

With high importance on the same, the students availing the Can-Ed Training Program will be able to work in any non-clinical department of a healthcare institution, but with the added advantage of having a clear idea on the importance of quality systems and how to improve on the same. This is exactly why care has been taken to infuse the concept of quality into each element of the course curriculum.

**Just think about it;
what is excellence without quality?**

HEALTHCARE QUALITY ADMINISTRATION

COURSE BRIEFING

The 100-hour Basic Program and 100-hour Foundation Program on Healthcare Quality Administration offered by Can-Ed, the education and training wing of Candour Solutions, is the result of an unending quest for ensuring the quality and employability of the youngsters that aspire to undertake a career in the highly dynamic and highly gratifying healthcare industry. These programs aim to serve as a finishing school for fresh undergraduates and graduates, who are keen on establishing themselves as competent employees, and more importantly, employees that focus on bringing a positive change through quality management.

The program will be rolled out with fixed time schedules, with a mixed time-table that shuffles between online and recorded classes.

The time table will be as follows:

Basic Program

Eligibility

Graduation and above

Duration

100 hours

Mode

Online & Recorded

Timing

Weekdays: 1 hour

Weekends: 1.5 hrs. Recorded session

Foundation Program

Eligibility

Post Graduate and above

Duration

100 hours

Mode

Online & Recorded

Timing

Weekdays: 1 hour

Weekends: 1.5 hrs. Recorded session

The attendees would need a minimum score of 50% (60 marks) in the final exam to be eligible to receive the certificate of completion from Can-Ed.

SNAPSHOT OF SYLLABUS

The Foundation Program syllabus has been carefully formulated to emphasise the importance of practical know-how over mere theoretical knowledge. Once again, the years of experience that gave birth to this curriculum is sure to translate for the trainees, once they step into the corporate world. As the program caters to both healthcare as well as non-healthcare backgrounds, the utility as well as flexibility factor is further enhanced.

The course will be divided into modules for ease of understanding, and will cover the following main topics:

Introduction to healthcare industry

Types of hospitals

Introduction to medical and non-medical departments in a hospital.

Healthcare regulatory bodies and delivery systems

Basics of human anatomy and physiology

Facility planning

Layout design

Introduction to HRM

Infection control protocols

Patient safety, patient behaviour and grievance redressal

Legal aspects in healthcare

Risk management

Strategic management

Supply chain/Logistics management.

The Basic Program will contain an even more rudimentary course curriculum, although portions of the above topics will also be covered

'Be the change that you wish to see in this world'

Mahatma Gandhi

Through external sources, this quote has been our biggest inspiration and driving force.

Can-Ed's sole and biggest accreditation and achievement is to see it's students flourish as the cream of the healthcare professionals' community! We know what we stand for, and are fully aware of our competence. Our teaching faculty are the top names in the field, and their inclusion is our biggest asset, not to mention the meticulously crafted syllabus. It is that confidence that urged us to take the plunge.

We want to be the change that we wish to see in this world. With the healthcare fraternity and our long-term associates by our side, we will be the change.
